

MEASURING TIPS FOR WALLPAPER

Pattern Repeats

All Fired Earth wallpapers, with the exception of *Dinner at Eight*, are straight edge matched. A straight edge match means the matching half of the design follows the same horizontal line as the next length hung. As you hang the paper you will see that the match runs straight across the lengths.

The Fired Earth design: *Dinner at Eight* is offset match, 52 repeat. An offset match is where the right hand edge of the first strip only matches with the left hand edge of the next strip, when the second wallpaper is dropped by a specified amount.
